EXPERIENCE

Full Stack Developer (July 2020 - Current)

SparkPoint Technologies Inc. - Legazpi City

- Develop and maintain the company's internal front end web applications using React.js and game applications using Unity.
- Integrate third-party services via RESTful APIs.
- Work collaboratively in Agile/Scrum environments, participating in sprint planning, daily stand-ups, and retrospectives.
- Actively participate in code reviews and provide constructive feedback.
- Staying up-to-date with emerging technologies and industry trends, continuously improving skills through self-learning and attending relevant conferences and workshops.

Project Manager (September 2022 - July 2023)

SparkPoint Technologies Inc. - Legazpi City

- Defining the project scope, objectives, and deliverables in collaboration with stakeholders using Mind Mapping and Concept Mapping via Miro.
- Creating and maintaining project schedules to ensure timely completion of tasks using ClickUp and GitHub Issues.
- Tracking project progress and providing regular updates to the team and stakeholders through communication platforms such as Slack, Discord, and Telegram.
- Conducting regular project status meetings to discuss progress and address challenges, utilizing daily standups for quick updates.
- Facilitating effective collaboration and communication among team members through platforms like Google Meet, Zoom, and Slack Huddle.

Junior Web Developer, PH Team (2019 - 2020)

Boomsourcing Inc. - Legazpi City

- Completed Basic to Intermediate Full Stack Training with up-to-date web technologies such as HTML5, CSS3, ES6, React.js, Node.js, Python and Django, including exposure to Software Testing Frameworks such as Jest, and connecting to public APIs asynchronously using Axios.
- Collaborated with teams from Mexico to migrate the internal company portal from Angular to React, using Git/GitLab as the source code management tool, utilizing Agile and Scrum software development methodologies that allow rapid delivery of high-quality, consistent, and well inspected software code.
- Worked with a team to upskill and explore established and promising web technologies such as Gatsby.js, GraphQL, Web Sockets, etc.
